

J-Squared Technologies Inc. **Conflict Minerals Statement**

March 2, 2021

Dear Valued Customer,

J-Squared Technologies Inc. supports the goals and objectives of the 2010 Dodd-Frank Act. This Act seeks to end conflict and human suffering associated with the illegal mining and trafficking of “Conflict Minerals” tantalum, tin, tungsten and gold, in the Democratic Republic of Congo (DRC) and surrounding areas (Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia, Angola, Congo, and the Central African Republic). As such, J-Squared has monitored these developments as they impact the electronics supply chain and is continually committed to helping our customers comply with all applicable reporting requirements.

As a value added reseller and integrator of electronic components, J-Squared Technologies Inc. does not directly purchase any conflict materials from any source, nor do we knowingly procure any products that may contain “Conflict Minerals”. Electronic component manufacturers understand that their VARs are not authorized to provide this level of detail to the end customer. J-Squared Technologies Inc. realizes the importance of the 2010 Dodd-Frank Act, and fully supports its objectives. We are committed to working with our suppliers to increase the transparency regarding the origin and traceability of the minerals contained in their products.

Therefore, J-Squared Technologies Inc. encourages all of our suppliers to likewise support these efforts and make information on their product material origins easily accessible on their sites, or through the ECIA Reporting website found at the following link: <https://www.ecianow.org/>.
